Welcome!
Concrete casting 2011
will take place from May.

We will meet at the Residential study centre at 10 am.
– the isunne team welcome you!

The course begins with a short introduction to the material-
Concrete.

We will review the course literature and practical preparations be-
fore we start. Throughout the day there will be a tutor present
ready to take questions and offer guidance.

We will equip ourselves with implements, tools and moulds.
Preparation is easy and we will soon be up and running ready to
create our own artwork for the garden, terrace or living room!

Your own imagination is the only limit to what you can create.

Before finishing up we will label our items during curing. You can
collect your new piece of art after approximately 3 days.

Other suggested activitites are: tomato sampling, garden kitchen,
woodland hiking, berry- and mushroom hiking with crop guaran-
tee. Find out more at www.isunne.se.
