In Sunne and Rottneros lives our crime novelist queen, Helene Tursten. Her books have inspired us to create our own murder mystery.

We will congregate and you will get a brief summary of what has happened so far, the characters, and what you are faced with.

With help from the supervisors you will be equipped with the prerequisites and tools required to solve the tricky assignments which arise and exist during the course of the day.

Some clues will give you the possibility to carry on, some pieces of information might come in handy later, some riddles may remain unsolved!?

We would like for you to wear robust clothing, boots or walking boots and bring your own mobile phone with a camera. It would be beneficial to have read one or two of her books but it is not a necessary requirement.

When you have solved all the assignments and reached your final destination, a nice and well deserved dinner awaits you.

Other suggestions for activities are: tomato sampling, treasure hunt, fishing, woodland hiking. Find out more at [www.isunne.se](http://www.isunne.se).
